LR 209

reason from Lincoln has been heard, and the others know better. I can't wait to hear Senator Beutler explain his position on the water bill and the expenditure of money. It would be better to spend it on water management than the State Fair, but that's not a Lincoln issue, and the others have very little to say on much of anything that's happening this session. But these are serious issues and I'm...

SPEAKER BROMM: Time.

SENATOR CHAMBERS: ...going to deal with them in that fashion. Thank you, Mr. President.

This afternoon I may vote yes to move this stuff on. I probably will, because I have always been under the assumption and made my decisions based on considering that as a fact. I'm not looking for it to solve our economic woes. I don't think it will. I don't...and I don't think this lottery will...I'm amazed that we have the education, environment. I'm amazed that we wanted to attach HIV/AIDS. In 15 years, you aren't going to have the money for any of this as far as the lottery is concerned. That thing is going away, trust me. I don't know, I could be wrong and there might be folks out in the lobby that will say, you're wrong, we're always
